Kenwick rail freight facility

The new facility will be built and owned by the PTA and included as part of the existing rail freight lease.

The facility will sit on approximately 17ha of land and will include:

- A flashbutt rail welding area
- Ballast loading tracks and stockpiles
- Rail stowage track for rail grinding and track machines
- A rail-handling area
- Administration and material storage facilities
- Connection to the existing rail freight network

The operation of the facility will be the responsibility of the rail freight network operator, with PTA acting as the landowner on behalf of the State Government.
